

A Deepfakes and Disinformation <i>Can you trust what you see and hear?</i>	B Using AI Well <i>The practical skill of prompting.</i>	C Understanding What AI Is <i>Does it think, or just predict?</i>
D Bias in Data <i>Who gets harmed when data is skewed?</i>	E Knowing What to Trust <i>Checking claims for yourself.</i>	F The Environmental Cost <i>The energy price of every query.</i>
G Your Data, Their Model <i>Your data as raw material.</i>	H Keeping Humans in Charge <i>When must a person decide?</i>	I AI Companions <i>Bonding with a chatbot.</i>

Cut along the dashed lines. Each card matches a slot on the mat.

Diamond 9: arrange the nine areas

Most important at the top, least at the bottom. Be ready to justify your order.

There is no right answer. The disagreement is the point.
